2/5/2018  
February Edition

### WHAT'S NEW?

1. "The Experience"
2. Horticulture Therapy Program
3. Equine Science Classes
4. Therapeutic Riding Program

"It is our goal to provide all of CLO with a safe and comfortable environment to come learn, grow, and most importantly have fun."

- MNF Team

### "The Experience"

*MNF Team*

We are excited to offer all of CLO a brand new way to experience the farm! We will be offering a variety of classes/activities that could only be pulled off at the one and only CLO Midnight Farm. Check out our February Activity Calendar, and come join us every day for a safe place to have fun.

### Horticulture Therapy

*Anna Clary*

The Therapeutic Project this month in the Horticulture Program will have us embellishing terracotta pots with hearts, jewels, and our own innate love, AND propagating one's very own plant in the greenhouse. Throughout this month, the Green Thumb Club and Plant Powered Classes will help tend and care for these plants, and then in March you get to take home your pot and plant!

### Equine Science

*Esther Martin & Vicki Massey*

For the first time ever the farm is excited to offer Equine Science Classes! Join us in the stables learn everything there is to know about our horses while being up close and hands on.

### Therapeutic Riding

*Esther Martin & Vicki Massey*

Our Therapeutic Riding Program is in session! For more information or enrollment contact Ky Kanaman via [kykanaman@clokan.org](mailto:kykanaman@clokan.org).
